OUR SOLUTIONS

SECURITY AWARENESS AND ANTI-PHISHING TRAINING WITH HUMAN FIREWALL 2.0™

Pervasive and constant cyber attacks can cause lasting damage to your organization. GLS' Human Firewall 2.0 program gives you a framework of flexible building blocks that allows you to tailor a training and reinforcement program to your unique needs. By combining foundational subject matter with deeper dives into high-risk topics, you receive the right mix of courseware, videos, posters and other program materials that resonate with your employees.

HR AND COMPLIANCE TRAINING

Violation of data privacy regulations can result in significant fines, audits, loss of reputation and erosion of your customer base. GLS offers a range of courses that mitigate your risk of non-compliance with US and international regulations, such as GDPR, HIPAA, FCPA and PCI DSS. We also offer specially-designed courses for managers, employees and human resources professionals on multiple employment laws, such as those around sexual harassment, workplace bullying, hostile work environment and discrimination.

IT SECURITY PROFESSIONAL TRAINING

Professionals in information technology roles require specialized subject matter that's aligned with their responsibilities and level of expertise. GLS has programs for software/web developers, IT administrators and engineers, security specialists and security managers. All our IT professional training courses are aligned with the requirements of federal, state and local governments in the US and meet the NIST, FISMA, HIPAA and FedRAMP guidelines.

BUSINESS APPLICATIONS AND SKILLS TRAINING

For business users who need a quick tutorial on a discrete task, or even an entire application, GLS provides training materials for common workplace productivity tools, such as the Microsoft Office suite, Google apps and Microsoft Windows.

With over 30 years of experience, Global Learning Systems is uniquely qualified to be your security awareness and compliance training partner.
